<b>TOTAL POPULATION ESTIMATE</b>			<b>925,489</b>

**NOTE:** the asterisked items represent the communities marked for demolitions between March and June 2009 and have a total population estimate of **190,749** families. These figures are exclusive of the population of the self-employed persons that are in occupation of the areas only for commercial purpose. Each of the commercial occupants maintains average staff strength of three workers. The totality of the commercial occupants in the areas is upto one-third, by far, the population of the residential occupants.
